

“I am now recommending both EnerPrime and delta-E to fellow athletes and even my parents! From an intangible perspective, I “feel” great and from a tangible perspective, my training and racing results have been terrific.” Kirk W.

Multi-time Ironman Finisher
2006 Best Overall Master Triathlete (preliminary results)**

“IMPaX World products helped me achieve this ranking!”

I have been active in the sport of triathlon for over 10 years and have used a variety of nutritional supplements with the goal supporting my overall health. I was recently introduced to the IMPaX World products and have become a fan of EnerPrime and delta-E.

Even with the strong endorsement of fellow athletes, I started taking the EnerPrime and delta-E with a fair amount of skepticism that is born from purchasing and using products that make dramatic claims but don’t produce dramatic results.

I am now recommending both EnerPrime and delta-E to fellow athletes and even my parents! From an intangible perspective, I “feel” great and from a tangible perspective, my training and racing results have been terrific.

At 44, I’m competing at the high end of my age group. I love training and competing regardless of my results but it’s a huge bonus when you hit your goals and win your age group. This year I was ranked as the Best Overall Master Triathlete (preliminary results) by Tri Northwest. I know that the IMPaX World products helped me achieve this ranking.

Try IMPaX World products and use your own judgment. I suspect you’ll have the same positive experience that I did.
